OFFLINE

As a wholesale supplier of circuit breakers since 1987, Pacific Coast Breaker has become an electrical industry leader by redefining the way companies purchase circuit breakers and motor control products. With strategic stocking programs, integrated partnerships and innovative product design teams, PCB constantly strives to meet the electrical industry's critical energy demands.

Evidence of this evolution can be seen globally through ever-increasing customer confidence and satisfaction.

But, the benefits of PCB extend far beyond circuit breakers. As PCB has grown so has the breadth of our products and services. Items such as engineered circuit breaker hardware, motor control components, transformers and replacement electrical contact kits for line starters and contactors are now routinely stocked and available for immediate delivery. We can custom design and manufacture manual transfer switches, combination starters and (MCC) motor control buckets to specifications.

PCB is an Authorized Stocking Distributor for **ABB** and the ABB Control and ABB Drives and Motors family which includes the Entelec and SSAC product lines. We maintain a large stock of line starters, contactors, circuit breakers, soft starts, variable frequency drives, low voltage drives, DC Motors and replacement parts ready for immediate shipment.

PCB is also an Authorized Stocking Distributor for **MOELLER**  (formerly Klockner-Moeller) motor control and automation products, leaders in the design and manufacture of Industrial Control, Automation and Energy Distribution Systems worldwide for over 100 years.

We are the Western U.S.A.'s Master Distributor of **HOYT** replacement electrical contacts for line starters and contactors. Kits are stocked for most major brands including Westinghouse, General Electric, Cutler-Hammer, Siemens-Allis, Square D, Ward Leonard, Allen Bradley, Joslyn-Clark, Sprecher+Schuh, Telemecanique, ITE/Gould, Arrow Hart, Federal Pacific, (ABB) ASEA Brown Boveri and Furnas and are available for immediate delivery.

We have a complete diagnostic testing and repair facility with certified technicians on site to provide services such as circuit breaker testing and reconditioning, retrofit, retrofill and preventative maintenance. As a proud Charter member of **PEARL**, the Professional Electrical Apparatus Recycler's League, our primary concern is product safety, superior quality and unsurpassed satisfaction in our products and services.

With the latest innovations, no matter where a caller is, they can quickly access our sales team and get critical material on the way, even when removed from normal business hours with emergency service accessible on a 7 x 24 x 365 basis.
